PPL & TF Contribution in SUI:

The major contributions of PPL & TF are Infrastructure development ,Community live hood, Vocational trainings, Trend of social entrepreneurship, Capacity building of staff and teachers , Provision of Solar city, Trainings ,VU campus in a remote area, Growth in community through awareness and resource mobilization and its "Vocational Training Institute, Sui". Taaleem Foundation institute serving by engaging the local youth and provided skill based training in dress making, hand and machine embroidery, industrial machine operating, and home textiles.

In the application development phase, Taaleem Foundation has approached the partnering enterprises to seek and identify the skills shortage in local market. As a result of series of consultative meetings Taaleem Foundation (TF) and partnering enterprises prioritized selected sets of needs, on the basis of which, training programme is built, conceptualized, and designed to address the skills shortages in the area.

Certificate Distribution Ceremony:

Taaleem Foundation (TF) has organized a grand certificate ceremony of their students with the collaboration its partner Pakistan Petroleum Limited (PPL) at Taaleem Foundation Educational Complex Sui (TFEC) at Monday 29 July 2019. In this ceremony chief guest was Mrs. Amber Adnan principal FC College SUI and more than 110 students participated and shared their good experiences and success stories after completing their courses also now they are earning handsome amount for their families. They also get some opportunities for espouser at this platform for more learning to make their lives more successful.

Program Starting: Program was started with the recitation of Holy Quran and Naat. After that Mr. Naeem Abbas representative of Taaleem Foundation briefed about the Taaleem Foundation contributions at Balochistan for the social cause.

VTI Introduction: Ms. Batool Naseer Manager VTI shared the progress of VTI and more opportunities that TF has started more courses (Beautician, Fashion Designing and Solar Technician) as per the need of this area. She also introduced the new trends of market and opportunities to utilize their skills in a better way to earn more.

VU & TFEC at SUI: Ms. Humaira Butt Manager VU also shared the progress and opportunities of Virtual University at SUI that how people of SUI can save their time and money and get a best education through online education that TFEC has a proper affiliation with VU and offering a complete package of academic programs.

Chief Guest Speech:

Chief Guest Mrs. Amber Adnan principal FC College SUI shared her views about TFEC and contribution for Sui specially in technical skills she also said that In the early days of social entrepreneurship with a strong partnership of TF &PPL pioneered important innovations were non-profits. For many young people today, however, social entrepreneurship is about a commercially viable enterprise.

"Designing a business model to solve these problems does not mean you're going to turn a profit – not in year one or two, but maybe not even in year five. Otherwise, conventional businesses would have stepped in already".

Now they are able to serve in the community for the betterment and also for a cause just because of the skills which they learned from the center. That was the main purpose of PPL and TF to establish a skills center in that remote area.

Local Chaap (Dance of Students): At the closing of ceremony students VTI performed a wonderful local dance chaap and audience really enjoyed this activity.

Marketing of VU & VTI:

TF has also designed a proper mechanism for the marketing of TFEC with the new trades for VTI and also ongoing and upcoming academic programs of VU through all possible marketing tools available in area like newspaper , TV cable Banners at all prominent places and also with broachers distribution which will be carried throughout the month of August.

Information Desk & Notice Board:

TFEC has also a proper information desk with all the requirements of VTI and VU information forms and registration forms for the visitors to brief them about the courses details. With a proper notice board for general information regarding the institute.

Folk Rung Display Center:

TF has also a Folk Rung Display center which is planned for a proper outside display for the VTI products for market and local people but now we have a proper products display corner at internal VTI managed with updated products of VTI. Online marketing will be available also at Folk Rung official website which will be shared as soon as possible.

Cultural Products:

VTI is also producing the local and cultural dresses and vase coats with the cultural embodied Patti which is specially made for Balochi Vase coats and suits .In market it is very costly because it's handmade and people like this for its colorful work and special stitching.

New Courses Introduced:

TF has started summer courses with new trade of Beautician and it's a purely paid course for six months after a proper marketing and admission campaign which was started by the Female social mobilizer and all VTI female students now we have 20 students in Beautician and 15 new students in Dress Making and Fashion Designing Students these students are paying for these courses. We have a proper detail record with all supporting documents.

Separate VTI Bank Account:

Separate Bank account for VTI at SUI HBL is now operational zed and fee is properly submitted in this which is operated by VTI Manager Sui through this she is able to purchase the material and other things directly for VTI as per needs.

TFEC Maintenance:

Maintenance of the Taaleem Foundation Educational Complex Sui is also in process especially with the replacement of all sign boards and Panaflexes and notice boards.
